# Made With Love

When I first played this song,  
You said it was wrong,  
You said it ought to be sadder,  
I've spent all this while  
In making you smile,  
Oh how can I make it better?

My song,  
You said,  
It's not good enough  
I know  
I know,  
But it's made with love

When I showed you the songs I've written before,  
You said you heart filled with envy,  
Didn't write one for you, but did for the whore,  
I could see in your heart was a frenzy

I said,  
Your song,  
Wasn't good enough  
You said,  
You know,  
But it's made with love

It's hard to write a sad song when I think of you,

When I'm with you I just so happy,  
That doesn't mean that my love is not true,  
And I'm sorry it just too sappy,  
  
It's been a year since you've been in my arms,  
And I've had time to ponder,  
I'll re-sing this song and undo the harm,  
How does it feel I wonder,  
  
My life,  
Is still  
Not good enough  
But still  
You know,  
It's made with love

# Euphoria

You dance here before me  
I feel a touch, romance  
I try my best to assume me  
That I could have a chance  
  
A chance to feel much wonder  
As I look into your eyes  
A hope that we'll grow fonder  
As our time flies  
  
Oh I feel sweet euphoria,  
How do you feel for me?  
Nothing to fear I assure ya  
If I swept you off you feet  
  
Oh life a wandering journey  
Full of joy and mystery  
Oh you could spend it with me  
A world of us to see.  
  
But now you're so far away,  
And I'm worried that you'd have changed.  
And you say you don't want to see me, and I don't know what to say.  
And I'm sitting down here waiting, I almost feel deranged  
But then I see you again, and I feel hope once again.  
  
Now you dance here right before me, and I ask for one last chance  
I hold your hand gently, would you like to dance?

# Rock my World

Passed the days, since you've been away,  
Was empty inside.  
Went on some dates, but I didn't stay.  
Need you by my side.

Tried to go a week, without you,  
No FaceTime or text,  
Swear I'm not weak, my dear it's true  
Can't wait to meet next.

## [Pre-Chorus]

Don't you feel the same.  
A heaven in your heart  
Would you feel a pain,  
If we fell apart.

## [Chorus]

Come here girl, and rock my world.  
before it too late.  
Hold my hands tight, I'll give you a swirl.  
Let's go on a date.

Sometimes I'm scared, of moving on.  
Won't see you again,  
Doesn't it bother you, that we won't talk,

For hours on end,  
(They keep me alive, the light in your eyes.  
So solid and true,  
I pray to see it again, the day mine dies.  
I swear I love you.)

**[Pre-Chorus]**

Something as sweet, as hearing your voice  
Wakes up my soul,  
I pray I'll see the lights in your eyes  
When mine are no more,

**[Solo]/[Chorus]**

Promise me that we're still friends,  
Through pleasure and pain  
If you change, your mind in the end  
I'll love you again

**[Chorus]/[End]**

# Rosewood Guitars

She walked in the room.  
With a smell of perfume.  
I was mesmerized when I looked in-  
To her eyes.

Eyes wide like the skies,  
They shine like the stars,  
With a shade of hazel that resemble,  
Rosewood guitars.

## [Pre-Chorus]

I keep dreaming about you,  
I'm wondering, if dreams come true.  
I'm lost alone without you  
So come back, and let's see this through

## [Chorus]

I'll be the bass string, and you'll be the A String,  
Maybe when we're older, have four strings of our own.  
I'll rock and you'll sing, won't you put on the ring  
Won't you be a part of my family and home  
  
I'm feeling so blue,  
When I'm without you,  
You know I love myself the most

.... When I love you  
I know it's not true,  
That you love me too.  
But don't think think it's special, how we're gentle  
With each other's hearts

**[Pre-chorus]****[Chorus]**

When I hear her voice  
My feelings rejoice  
And when I fell her ear, my lungs  
Are grasping for air.

When I see her face,  
I'm in a different place.  
A place I'm alway happy, I know it's sappy.  
Don't you feel the same?

**[Pre-chorus]**

She walked in the room.  
With a smell of perfume.  
I was mesmerized when I looked in-  
To her eyes.

Eyes wide like the skies,  
They shine like the stars,  
With a shade of hazel that resemble,  
Rosewood guitars.

# Excuse Me Miss

Never thought before such beauty could exist,  
You're dancing on the floor, what a wonder to be blessed,  
My brain says to ignore but I cannot resist,  
Alas, my heart is sore, my stomach in a twist,  
  
To ask you to a dance, I have to take your hand  
But I'm stuck in a trance, I cannot even stand  
You look at me and I just try to fake a smile  
The truth, my heart it wails, just yearning for a while.

(Chorus)

Excuse me miss?  
Would you like to dance?  
If you feel romance?  
May I steal kiss?  
  
I know that you will find I'm a little bit insane,  
I wonder if my mind will ever be the same,  
You may think I've I lost all sensibility  
But my madness is my one stability

(Chorus)

Excuse me miss?  
Would you like to dance?  
And if you feel romance?

May I steal kiss?

My heart, it burns, an ember set aflame  
Yet somehow it churns a cold December rain  
Wouldst thou like to dance lady Katerina dear  
Потанцуем, моя балерина и мир

# That's What I Call

D, Bm, G, A

I was running alone,  
Then you showed me your home,  
And after I stayed for a while,  
My frown turned into a smile.

You are good and kind,  
A beautiful soul and mind,  
Someone I didn't think to find,  
Maybe our fates were intertwined

That's what I call a friend,  
Someone who makes the pain all end,  
Something that never ever ends,  
Just when I need a friend.

I'm trying to fill that void,  
Familiar pain that I avoid,  
And I have lonely days,  
But you showed me your ways,

That's what I call a home,  
Somewhere the heart and mind has grown,  
Something that ends the pointless roam,  
Just when I need a home

Bm, G, D, A

And I wonder if anything this nice could last forever, last forever,  
But if the love inside of all our hearts can bring us all, all together, it  
doesn't matter

*D, Bm, G, A*

That's what I call love,  
Something that's always more than enough,  
Something that helps when times are tough,  
Just when I need love.

# **Sparky**

*A, Gm, D, A,E*

Improvise cute lyrics about Sparky

[Chorus]

Sparky

Sparky

Sparky

Sparky

# Sweetest Reminder

When I am with you I want to dance, with you  
And As I see you I'm in a trance, with you  
And when I think of you I smell that Chance, perfume  
But you are moving away to France

When I see you I'm hypnotized, by your, brown eyes  
That have the power to see through my white lies,  
When I'm feeling lost I sing the blues, it's true  
Girl you know I'm lonely without you

## [Chorus]

Cause it's not so easy, with all that you've got,  
And when you're near me, can't get enough  
So when you see me, I crack a smile, And we pass the while,  
And doesn't it please you, whenever I tease you, cause I just can't get  
enough, SO when you're near, oh won't you please here me sing this  
song.

Remember when we stole burgers, from North Ave  
Remember when we shared Kinders, in French class  
You are the sweetest reminder,  
Of a time our eyes were filled with wonder

## Chorus

Kiedy jestem z tobą, Isia,  
Chce mówić po polsku, Misa

Chce tancic z toba  
Moja Przyiacioka Ludwisia

When I am with you I want to dance, with you  
When I see you I'm in a Trance  
You know I really miss that Chance perfume  
Let's dance and give romance one chance

I often to think of, of you  
I fear that I may fall in love, with you  
I never thought it would be this though  
Our time together is not enough

I miss when we would chat in Skype,l  
Pusheen emojis when we'd type, online  
No need no Tinder don't want to swipe  
Clause I Really thought you were just my type.

Please tell me I will see your Face again sometime  
I mean in person not in Face, FaceTime,  
Cause I'll miss that smile and morning grace, that shine,  
In the moment everything seemed fine.
